# SCHOOL REPORT

## Superintendent's Report

*To the Lempster School Board:—*

I herewith submit my third annual report as your Superintendent of Schools.

Last fall the Cragin School was closed, and what had been three schools of the district were united into two, one at the Street for the four lower grades, and one at East Lempster for the four upper grades.

While the benefit to the children is of first importance, it is well for us to consider the financial side. Savings are being made on the following items, teachers salaries, \$900.00; janitor, \$36.00; wood, \$37.00; overhead, about \$45.00. The one added expense is in transportation, about \$810.00. Of this net saving of a little over \$200.00 I cannot state just how much will be for Lempster, and how much the State will absorb. If the plan is a success, even greater savings may be made by making contracts for transportation covering three years.

From the standpoint of the children's good there is no doubt in my mind that it is a great improvement. There is more time for the classes, less distraction due to the activities of different grades, better play conditions on the grounds, a larger grouping of children of the same age, and a chance to select teachers more specialized for the work to be done.

Miss Susie Benway is well prepared to work with smaller children. The group is cheerful and making good progress. Lempster was fortunate to have one with her experience, interest, and good disposition to help unite the three groups into a school. Miss Frances Clark, a graduate of Keene Normal School has shown ability as a teacher of upper grades. Although this is her first year, her excellent preparation together with determination and a strength of character has made her school work successful.

I wish that every citizen might visit the East Lempster School to see the improvements made in the building last summer. Considering the price of the chemical toilets and the solid construction of the addition, the cost was low.

The smaller towns are being harder hit each year by the cost of high school tuitions, an item which has to be paid directly from local taxes. Over a long term of years the item amounted to from \$105.00 to a high of \$284.33 in 1927-28. The next year it jumped to \$375.58, then to \$448.90. The next big rise was in 1930-31, \$665.44, in 1931-32, \$733.41, and this year about \$837.00. The increase in this item is a direct increase in the amount that has to be asked from the local tax payers.

I wish to thank the Lempster School Board, the teachers, the pupils, and the citizens for their cooperation and kindness.

Respectfully submitted,

WALTER L. MASON.
